Bibliography

1. Abusive Head Trauma in Infants and Children
   American Academy of Pediatrics Policy Statement
   Pediatrics 123:1409-1411 2009

2. Prevalence and Evolution of Intracranial Hemorrhage in Asymptomatic Term Infants

3. Intracranial Hemorrhage in Asymptomatic Neonates: Prevalence on MR Images and
   Relationship to Obstetric and Neonatal Risk Factors

4. Frequency and natural history of subdural haemorrhages in babies and relation to
   obstetric factors.
   Whitby, EH Lancet 363:846-851 2004

5. Evaluating for suspected child abuse: Conditions that predispose to bleeding.
   Carpenter, SL Pediatrics 131:31357 2013

6. Abusive Head Trauma: Judicial Admissions Highlight Violent and Repetitive Shaking
   Adamsbaum, C Pediatrics 126:546-555 2010

Falls

7. Injuries resulting when small children fall out of bed.
   Helfer, RE Pediatrics 60:533-535 1977

8. Falling out of bed: A relatively benign occurrence.
   Lyons, TJ Pediatrics 92:125-127 1993

9. The likelihood of injuries when children fall out of bed.
   Nimityongskul P J Ped Ortho 7:184-186 1987

10. Bunk bed injuries.
    Selbst, SM AJDC 144:721-723 1990

    Chiaviello CT Pediatrics 94:679-681 1994

13. Things that go bump...bump...bump: An analysis of injuries from falling down stairs in
    children based at Sheffield Children’s Hospital.

    Chiaviello CT Pediatrics 93:974-976 1994

15. Injuries to children related to shopping carts.
    Smith, GA Pediatrics 97:161-165 1996

    Pitone, ML Pediatric Emergency Care 22:470-4 2006
17. Population-based study of fall injuries in children and adolescents resulting in hospitalization or death.
   Rivara, FP  *Pediatrics* 92:61-3  1993
   Tarantino, CA  *Ped Emerg Care* 115:5-8  1999
19. Annual risk of death resulting from short falls among children: less than 1 in 1 million.
   Chadwick, DL  *Pediatrics* 121:1213-24  2008
20. Fatal falls in childhood.
   Reiber, GD  *Am J Forensic Med Path* 14:201-207  1993
   Thompson, AK  *Accident Analysis and Prevention* 43:143-150  2011

**Hypoxia**
22. Dural hemorrhages in non-traumatic infant deaths: does it explain the bleeding in “shaken baby syndrome”?
   Geddes JF  *Neuropathol Appl Neurobiol* 29:14-22
24. Cranial computed tomographic findings in a large group of children with drowning:
   Diagnostic, prognostic, and forensic implications.

**Intracranial venous thrombosis**
   DeVerber G  *NEJM* 345(6): 417-423  2001
26. Does intracranial venous thrombosis cause subdural hemorrhage in the pediatric population?
   McLean L  *AJNR* 33:1281-84  2012

**Retinal hemorrhages**
27. Retinal hemorrhage in abusive head trauma
   Levin AV
   *Pediatrics* 126:961-970  2010
28. Prevalence of retinal hemorrhages in critically ill children
   Agrawal S
   *Pediatrics* 129:e1388-e1396  2012
29. Odds of abuse associated with retinal hemorrhages in children suspected of child abuse
Fractures
30. Evaluating children with fractures for child physical abuse
   Flaherty, EG  *Pediatrics* 133:e477-e489  2014
31. Delayed identification of pediatric abuse-related fractures
   Ravichandiran, N  *Pediatrics* 125:60-66  2010
32. Symptoms and time to medical care in children with accidental extremity fractures
   Farrell, C  *Pediatrics* 129:1-6  2012
33. The presence of bruising associated with fractures
   Peters, ML  *Arch Pediatr Adolesc Med* 162(9):877-881
34. Symptoms and time to medical care in children with accidental extremity fractures
   Farrell, C  *Pediatrics* 129(1):1-6  2011
35. Prevalence of the classic metaphyseal lesion in infant at low versus high risk for abuse
   Kleinman, PK  *AJR* 197:1005-1008  2011
   Kleinman, PK  St. Louis, MO: Mosby, 1998
37. Osteogenesis imperfecta: the distinction from child abuse and recognition of a variant form
38. Temporary brittle bone disease: association with decreased fetal movement and osteopenia
   Miller, ME  *Calcif Tissue Int* 54:137-143  1999

Vitamin D
39. Vitamin D status in abused and nonabused children younger than 2 years old with fractures.
   Schilling, S  *Pediatrics* 127:835-841  2011
40. Rachitic changes, demineralization, and fracture risk in healthy infants and toddlers with vitamin D deficiency
   Perez-Rossello, FM  *Radiology* 262(1):234-241
